VISION FOR THE SCHOOL

In case you missed Mr. Potthoff's presentation for the Vision for the school, he talked about partnering with a local business on an existing property that is currently available. Here is what we see as our future:

In order to grow this ministry, we need a new facility capable of providing the space and resources for the future. This includes:

- Space for an expanding pre-school
- Full service Kindergarten through High-School
- Support for Home School ministry
- Facility for a radio ministry and the Fine Arts.

This facility must be ready to meet the needs of a growing community and families that desire a Christian education for their children.

Please pray for this vision and finding a business partner or those who wish to invest in the school in a way that will meet our long term needs and provide financial stability.

God can make a way, when there seems to be no way.
